Have an IDILic experience:
Training through and for research
YOU ARE
• Interested to learn through and for research
• Able to communicate in English (both in writing and speaking)
• Specialized in a discipline but open to interdisciplinarity

AN IDILic EXPERIENCE
• Personal coaching and mentoring by 2 researchers
• Learning by living an immersive experience in research laboratories
• A strong experience in project management

AN IMMERSION IN LAB’
• Benefit from subsidized internship up to 6 months per year
• Benefit from several small group workshops in laboratories
• A chance to acquire ‘in the field’ skills and theoretical knowledge
• An immersion in the daily life of laboratories

THE UNIVERSITY OF MONTPELLIER
An internationally recognized research-intensive university, with a history that dates back 8 centuries, yet committed to the key challenges of its time.

The University of Montpellier (UM) is the 6th largest university in France, with about 50,000 students including 7,000 come from abroad to study in Montpellier. One of the most innovative higher education institutions (Reuter’s ranking), UM ranks very high in many international rankings. It is one of the 200 best universities in the world and one of the top 3 in ecology, in the Shanghai ranking.
8 MASTER TRACKS
1 ENGINEER SPECIFIC TRACK

MASTER 1
Trainings Units
• Core courses that anchor you in a discipline
