UNIVERSITÉ DE MONTPELLIER

i d i l

Learning through
research

YOU ARE

- Interested in learning through research
- Able to communicate in English (both in written and oral)
- Specialized in one discipline but open to interdisciplinarity

A TRUE RESEARCH EXPERIENCE

- Personalized coaching and mentoring from 2 researchers
- Learning through an immersive experience in research laboratories
- Strong project management experience

IN LAB' IMMERSION

- Benefit from subsidized internships up to 6 months per year
- Benefit from several small group workshops in laboratories
- A chance to gain hands-on skills and theoretical knowledge
- An immersion into the daily life of laboratories

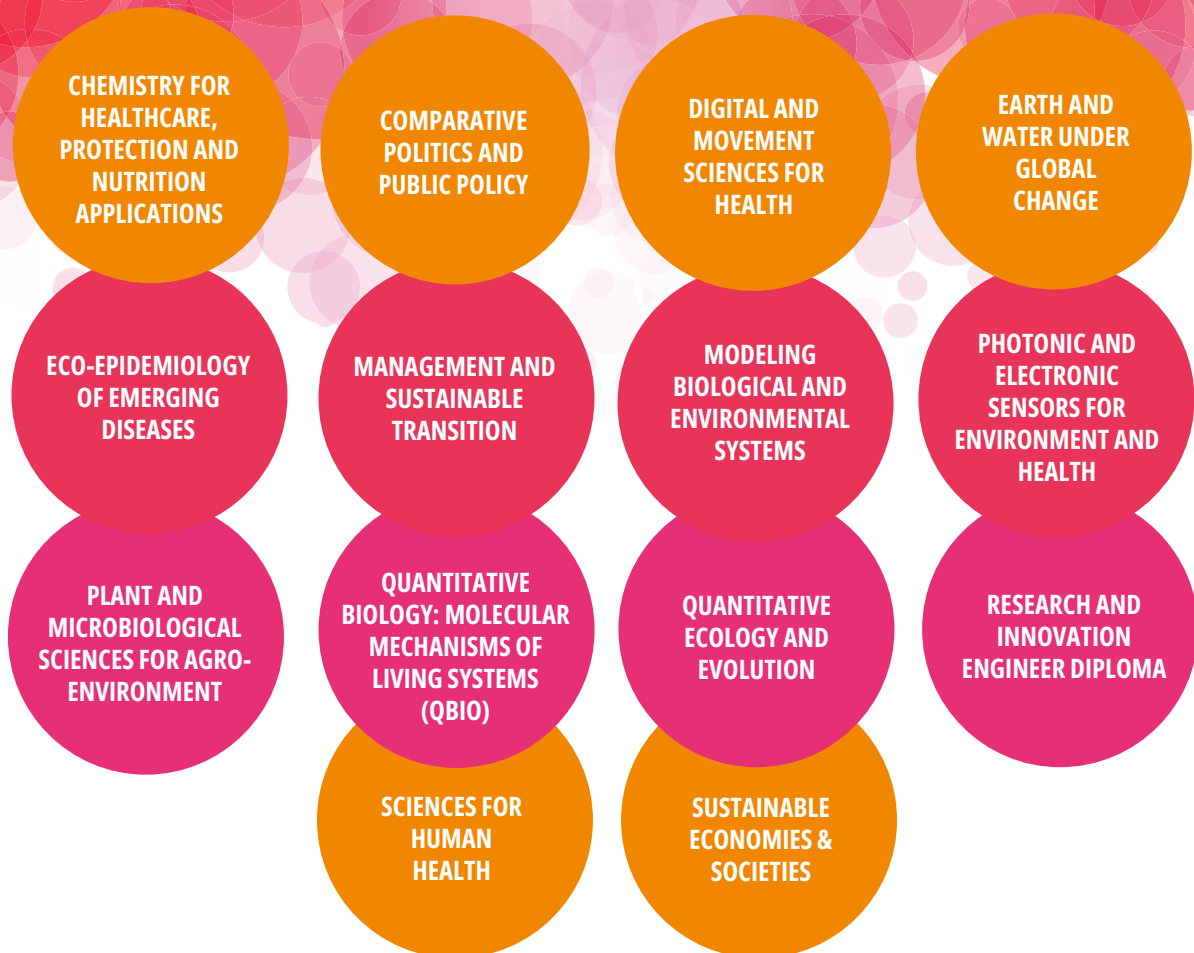

THE UNIVERSITY OF MONTPELLIER

An internationally recognized research-intensive university, with a history that dates back 8 centuries, yet committed to the key challenges of its time.

The University of Montpellier (UM) is the 6th largest university in France with about 50,000 students, 7,000 of whom come from abroad to study in Montpellier. One of the most innovative higher education institutions (Reuter's ranking), UM ranks very high in many international rankings. It is one of the 200 best universities in the world and one of the top 2 in ecology, in the Shanghai ranking.

13 MASTER COURSES

1 ENGINEERING TRACK
