

# Financing Adaptation to Coastal Risk:

## Can Local Authorities Afford Managed Retreat?

### Context:

- In response to sea-level rise, municipalities face increasing adaptation costs.
- Challenges in estimating adaptation costs.
- Coastal erosion risk and shoreline retreat are putting pressure on national solidarity mechanisms.

### Research internship:

- Collect and analyse qualitative and quantitative data.
- Review the literature and policy documents on financing coastal climate adaptation.
- Assess coastal municipalities' financial capacity to implement adaptation policies.
